Activity

- Active during the Holocene (<10,000 yrs) or post glacial (<18,000 yrs)
- Active during the Holocene (<10,000 yrs) or post glacial (<18,000 yrs), approximately located
- Active during the latest Quaternary (<120,000 yrs)
- Active during the latest Quaternary (<120,000 yrs), concealed
- Active during the latest Quaternary (<120,000 yrs), approximately located
- Active during the middle to late Quaternary (<0.78 Ma)
- Active during the middle to late Quaternary (<0.78 Ma), concealed
- Active during the middle to late Quaternary (<0.78 Ma), approximately located
- Active during the Quaternary (<1.6 Ma)
- Possibly active during the Quaternary
- Possibly active during the Quaternary, inferred
