

LANDSLIDES IN ALAMEDA COUNTY, CALIFORNIA, A DIGITAL DATABASE EXTRACTED FROM PRELIMINARY PHOTOINTERPRETATION MAPS OF SURFICIAL DEPOSITS BY T.H. NILSEN IN USGS OPEN-FILE REPORT 75-277

by
Sebastian Roberts, Michelle A. Roberts, and Eileen M. Brennan

with a preface by
Richard J. Pike and Sebastian Roberts

1999

Map derived from Nilsen, T.H., Bartov, J.A., Hixson, V.A., and Sims, J.L., 1976, Preliminary photointerpretation maps of landslides and other surficial deposits of 50 7 1/2 minute quadrangles in the southwestern San Francisco Bay region, Alameda, Contra Costa, and Santa Clara Counties, California. U.S. Geological Survey Open-File Report 75-277, scale 1:24,000.

Base scanned from U.S. Geological Survey Bay Region Topographic Sheets, scale 1:25,000, 1970 (ARKIN, D.S., 1997, USGS OFR 97-500) Universal Transverse Mercator projection, Zone 10.

This map is a plot derived from data contained in the digital database Open-File Report 99-504, "Landslides in Alameda County, California, A Digital Database Extracted From Preliminary Photointerpretation Maps of Surficial Deposits by T.H. Nilsen in USGS Open-File Report 75-277." A PostScript image of this map is included in the Open-File Report, but the Open-File Report does not contain a paper copy of this map. The Open-File Report contains the digital data and a document explaining the database and indicating how to obtain the data from which this map was prepared as well as the PostScript image of the map.

This report is preliminary and has not been reviewed for conformity with U.S. Geological Survey editorial standards or with the North American Cartographic Code. Any use of trade, product, or firm names is for descriptive purposes only and does not imply endorsement by the U.S. Government. The database identified as "Landslides in Alameda County, California, A Digital Database Extracted From Preliminary Photointerpretation Maps of Surficial Deposits by T.H. Nilsen in USGS Open-File Report 75-277" has been approved for release and publication by the Director of the USGS. Although this database has been subjected to rigorous review and is substantially complete, the USGS reserves the right to revise the database and to amend and delete information. It is released on condition that neither the USGS nor the United States Government may be held liable for any damages resulting from its authorized or unauthorized use.

- landslide deposit larger than 200 feet
- landslide deposit larger than 200 feet (identification uncertain)
- landslide deposit larger than 200 feet but smaller than 500 feet (La Costa Valley quadrangle only)
- County boundary
